Career Objective

Motivated and detail-oriented B.Tech 2nd year student aspiring to join Microsoft as a Software Engineering Intern, with strong interest in problem-solving, web development, and data structures. Eager to contribute to real-world software solutions while learning industry-standard engineering practices.

Education

Bachelor of Technology (B.Tech)
St. Andrew Institute of Technology and Management
Currently Pursuing – 2nd Year

Technical Skills

- Programming Languages: C (Strong), Java (Intermediate), Python
- Web Technologies: HTML, CSS, JavaScript (Learning)
- Core Concepts: Object-Oriented Programming, Data Structures & Algorithms, Logical Thinking and Problem Solving

Projects

Image Search Engine (Web Application)

- Developed a responsive image search application using HTML, CSS, and JavaScript
 - Implemented dynamic search functionality and user-friendly UI
 - Improved understanding of API handling, DOM manipulation, and event-driven programming
- <https://image-search-engine-00.vercel.app/>

Calculator Web Application

- Designed and implemented a functional calculator using HTML, CSS, and JavaScript
 - Focused on clean UI design and accurate arithmetic operations
 - Strengthened JavaScript logic, functions, and user interaction handling
- <https://calculator-mu-wine-75.vercel.app/>

Academic & Learning Highlights

- Completed C programming with hands-on problem solving
- Built foundational applications using Java and Python
- Actively practicing Data Structures and Algorithms to improve efficiency

Soft Skills

- Effective Communication
- Strong Problem-Solving Ability
- Quick Learner and Adaptable
- Creative Thinking (Sketching)

Declaration

I hereby declare that the above information is true and correct to the best of my knowledge.
